San Antonio Keynotes

- Monday Feb 29
Reclaiming Your WhiteSpace®
Juliet Funt, Founder and CEO, WhiteSpace at Work
- Tuesday Feb 30 (haha! aka, Mar 1)
The Confluence of Data Security Challenges
Patrick Gray, IT Security Consultant
- More at: www.SHARE.org/SAFeatured

EXECUforum 2016, February 29–March 1, will run concurrently with SHARE in San Antonio and is the ideal place to grow relationships with fellow leaders both for your organizations and for client organizations. EXECUforum presents opportunities for shared learning and discussion on current business challenges for the enterprise IT executive of today

Why Attend?

Spanning just two days, EXECUforum 2016 is designed to deliver valuable information on:

- Big Data / Analytics
- Mobile / Security
- Mainframe Skills Gap

This annual event is the time and place to join the discussion on critical business challenges, collaborate on opportunities for shared learning and engage in solutions-based reviews alongside like-minded peers. Not to mention a chance to network with IBM executives as well as executives from other companies.

For more information check out: www.SHARE.org/EXECUforum2016

Introducing...DevOps in the Enterprise

SHARE in San Antonio's educational hot topics just got even hotter with the introduction of the brand-new DevOps in the Enterprise educational track, featuring instructors from TechBeacon's 100 DevOps "ones to watch." This new track will cover a variety of topics including:

- Getting started with DevOps
- Basic principles of DevOps
- Common DevOps misconceptions
- DevOps' role in enterprise computing
- Lessons from the trenches: successes and challenges
- And many more!

For more information check out: www.SHARE.org/DevOpsSA

SHARE ACADEMY

SHARE Academy provides an opportunity to dive deep into some of the hottest topics facing enterprise IT professionals today. Learn from experts on Sunday, February 28, 2016 before the full SHARE in San Antonio week kicks off and grow your knowledge in one of the hand-picked specialties available for the first-ever Academy program.

San Antonio 2016 Tracks

- **Assembler Bootcamp:** Join SHARE Best Session Award-winning "Assembler Language Bootcamp" instructors for a quick, easy, five-session introduction to the most important elements of the IBM mainframe's Assembler Language. Throughout the day, this program will cover key concepts and provide illustrative examples to help you understand and write simple assembler programs.
- **IMS Immersion:** "Immerse" yourself in IMS with a full day of programming that will focus on advanced topics in IBM's Information Management Systems. This program is targeted at IMS mid-level and lighter skilled DBA's, Systems Programmers, Application Programmers and Architects, and will include a pre-event webinar with homework.

Why Attend?

In just one day, SHARE Academy will deliver valuable information for those looking to learn more about one of two unique specialties. Join like-minded peers for an immersive educational experience and build a deeper understanding in a key enterprise IT focus area.
