Case #2376 - IFO - TCPIP - Check for Semicolon & Inspect Double Up.

Case #2377 - IFO - OPSYS - Corrected IPLCheck issue because of the amount of storage.

***** ICEDirect Requirements *****

Installing ICEDirect - This will have to be a complete new full installation and cannot be completed by installing the PTF.

ICEDirect is a collection of application interfaces that provide access to the Integrity Controls Environment through the internet using a browser-based interface, The Web Edition. This is a SMP Installation and for ICEDirect it will be required to do a new full download and installation.

After downloading the DISKET File you will run the INSTALL Job and then run the following jobs inside of the IFOHLQ.INSTLIB.

ICE Datasets:

\$SM10AL1

\$SM10AL2

\$SM10AL3

\$SM10BLD

\$SM20CSI

\$SM30INI
\$SM40DDF
\$SM50REC
\$SM60APL
\$SM70ACC
Web Server Datasets:
\$SM80AL1
\$SM80BLD
\$SM80DDF
\$SM80REC
\$SM82APL
\$SM82CPY
\$SM84ACC

After running all the above jobs, you will update the Member NEZWEB00 in the IFOHLQ.PARMLIB Dataset with information needed.

Then you will have to supply support@newera.com with a D M=CPU as ICEDirect will require a new set of License Keys.

At this time support will generate the license keys and contact you for an installation Zoom/Webcast to complete the steps necessary to finish this installation.
